5. SauceDemo (Swag Labs) – End-to-End Functional & UI Test Cases

Module Name: SauceDemo (Swag Labs) – End-to-End Functional & UI Test Cases
Test Case ID: Str_Id_05
Webpage URL: https://www.saucedemo.com/

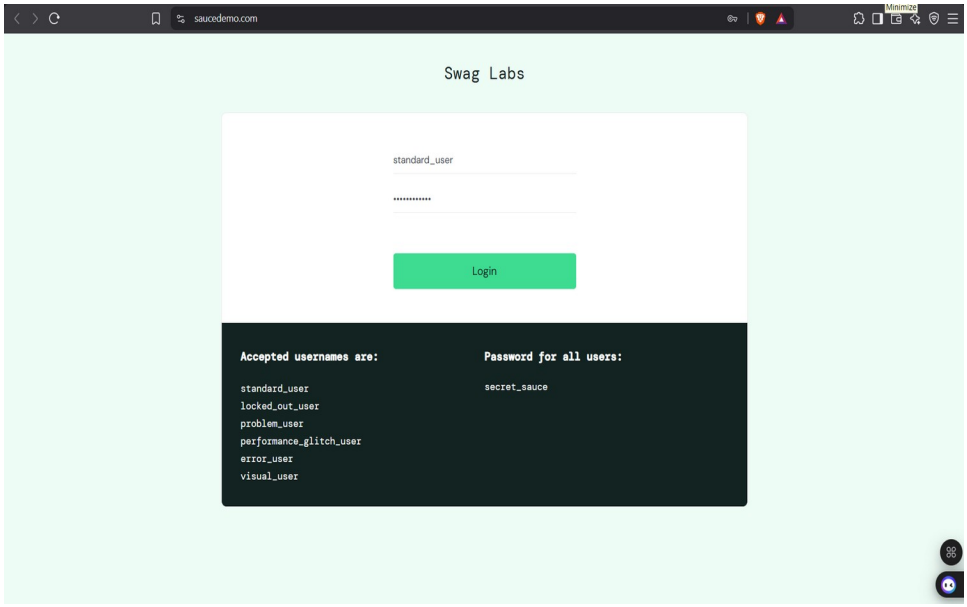

Scenario ID: 1a Login with valid credentials

Scenario: Login with valid credentials (standard_user)

Test Steps:

1. Open https://www.saucedemo.com/
2. Enter Username: standard_user
3. Enter Password: secret_sauce
4. Click Login button

Expected Result: User successfully logs in and is redirected to Inventory (Products) page
Actual Result: Login successful. User landed on Inventory page showing all products
Status: **Pass**

Scenario ID: 2b Login with locked_out_user

Scenario: Login with locked_out_user (negative test)

Test Steps:

1. Open login page
2. Enter Username: locked_out_user
3. Enter Password: secret_sauce
4. Click Login

Expected Result: Error message displayed: Epic sadface: Sorry, this user has been locked out.
Actual Result: Correct error message displayed. User remains on login page
Status: **Pass**

Scenario ID: 3a View Inventory / Products page

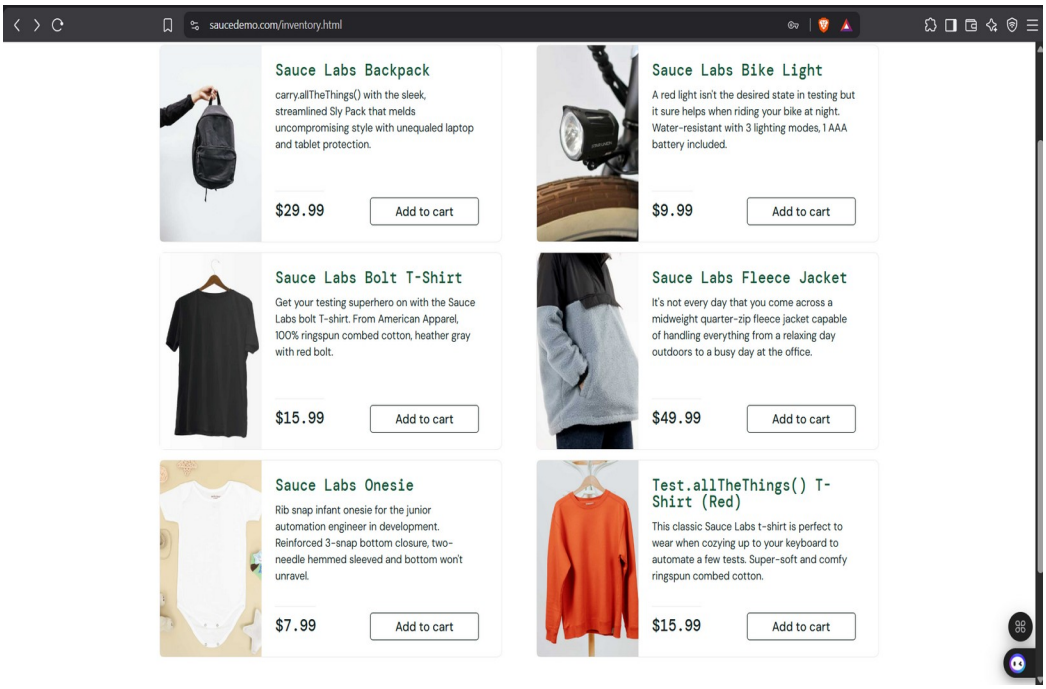

Scenario: View product list after successful login

Test Steps:

1. Login with standard_user
2. Observe the Products page

Expected Result: All 6 products displayed with name, description, price and Add to cart button
Actual Result: 6 products displayed correctly with images, prices and Add to cart buttons

Status: **Pass**

Scenario ID: 4b Add single product to cart

Scenario: Add Sauce Labs Bolt T-Shirt to cart from Inventory

Test Steps:

1. On Inventory page
2. Click "Add to cart" on Sauce Labs Bolt T-Shirt
3. Observe cart badge

Expected Result: Cart badge updates to 1 and button text changes to "Remove"
Actual Result: Cart badge showed 1. Button changed to Remove
Status: **Pass**

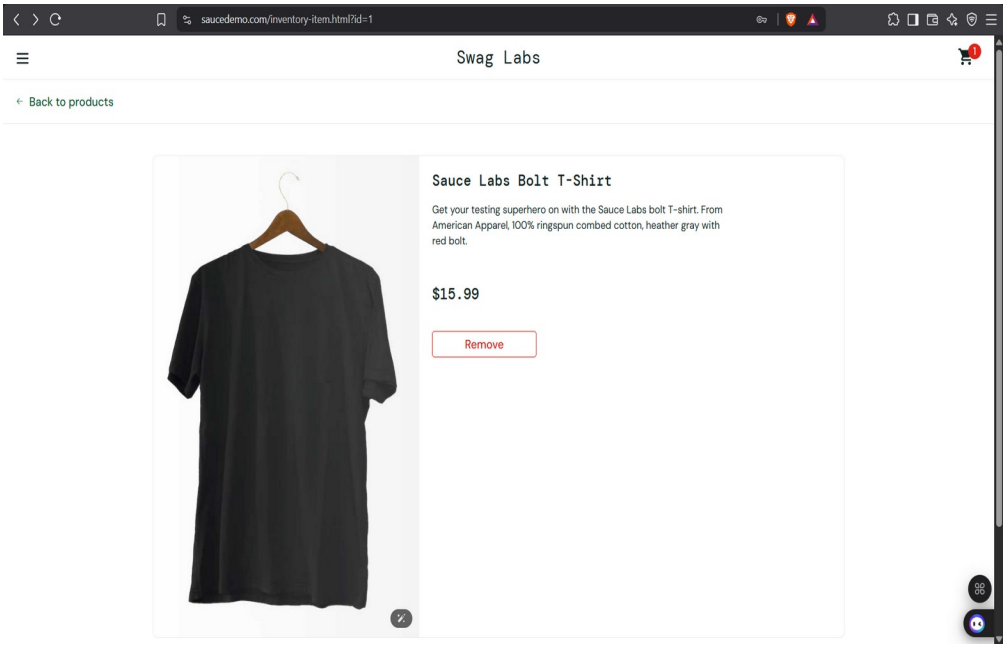

Scenario ID: 5c Open Product Detail page

Scenario: Navigate to product detail of Sauce Labs Bolt T-Shirt

Test Steps:

1. Click on Sauce Labs Bolt T-Shirt (name or image)
2. Observe the detail page

Expected Result: Product detail page opens with large image, full description, price, and Remove button. Back to products link available. Cart badge visible.
Actual Result: Detail page opened correctly with all elements. Cart badge = 1
Status: **Pass**

Scenario ID: 6d Add second product and verify cart badge

Scenario: Add Sauce Labs Backpack and verify cart badge updates to 2

Test Steps:

1. Click "Back to products"
2. Click "Add to cart" on Sauce Labs Backpack
3. Check cart badge

Expected Result: Cart badge updates to 2
Actual Result: Cart badge correctly updated to 2
Status: **Pass**

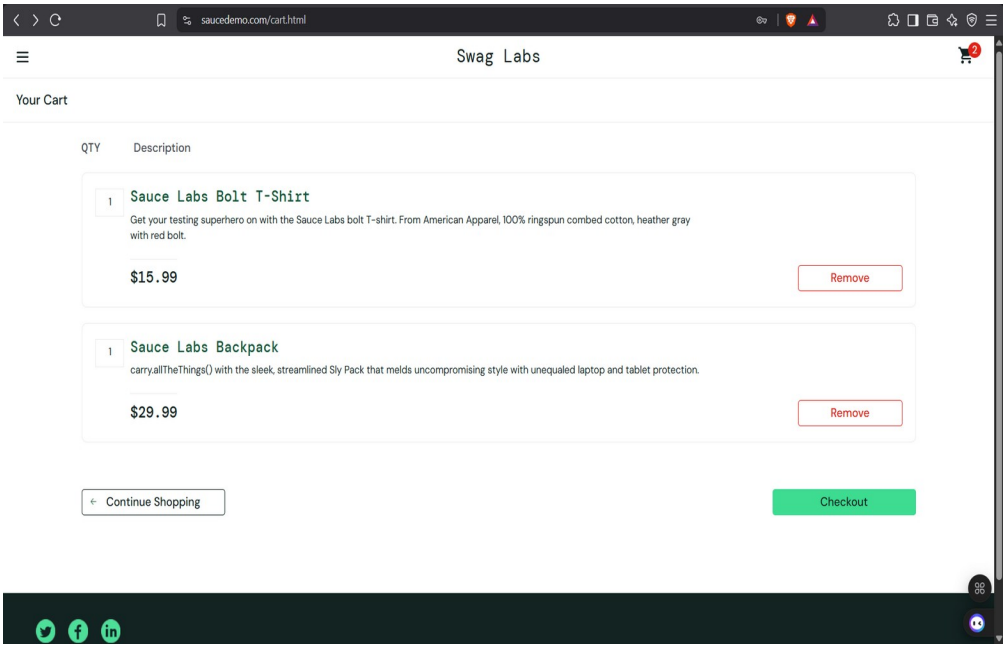

Scenario ID: 7e View Cart page with multiple items

Scenario: Verify cart contents with 2 products

Test Steps:

1. Click on Cart icon (top right)
2. Observe Your Cart page

Expected Result: Cart shows both products with QTY=1, correct prices, Remove buttons, Continue Shopping and Checkout buttons
Actual Result: Cart displayed both items correctly with accurate prices and quantities. Badge = 2
Status: **Pass**

Scenario ID: 8f Remove item from cart

Scenario: Remove one item and verify cart badge updates

Test Steps:

1. On Cart page
2. Click Remove on one item
3. Observe list and cart badge

Expected Result: Selected item is removed. Cart badge decreases by 1
Actual Result: Item removed successfully. Cart badge updated correctly
Status: **Pass**

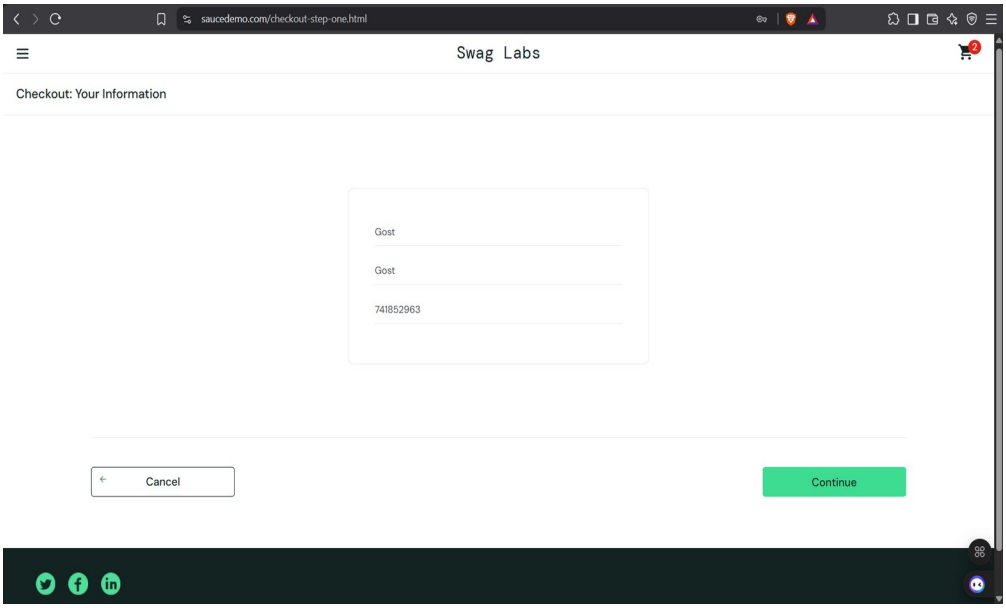

Scenario ID: 9a Proceed to Checkout – Your Information

Scenario: Start checkout flow from cart

Test Steps:

1. Ensure items are in cart
2. Click Checkout button

Expected Result: Redirected to Checkout: Your Information page with First Name, Last Name and Postal Code fields
Actual Result: Checkout Information page loaded correctly
Status: **Pass**

Scenario ID: 10b Fill Checkout Information and Continue

Scenario: Enter personal details and proceed

Test Steps:

1. Enter First Name: Gost
2. Enter Last Name: Gost
3. Enter Postal Code: 741852963
4. Click Continue

Expected Result: Redirected to Checkout Overview page showing items, payment info, shipping info and price total
Actual Result: Successfully moved to Overview page with correct item list
Status: **Pass**

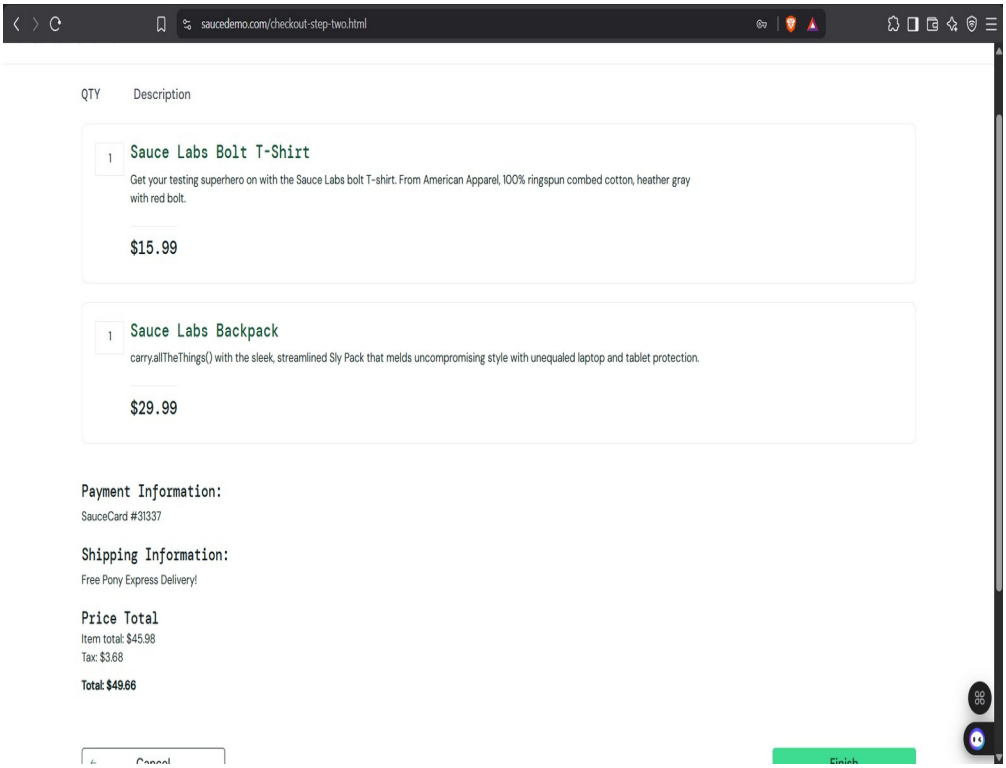

Scenario ID: 11c Verify price calculation on Overview page

Scenario: Review order summary and price total

Test Steps:

1. On Checkout Overview page
2. Verify Item total, Tax and Total

Expected Result: Item total = $45.98 | Tax = $3.68 (8%) | Total = $49.66
Actual Result: Item total: $45.98 | Tax: $3.68 | Total: $49.66 — calculation is correct
Status: **Pass**

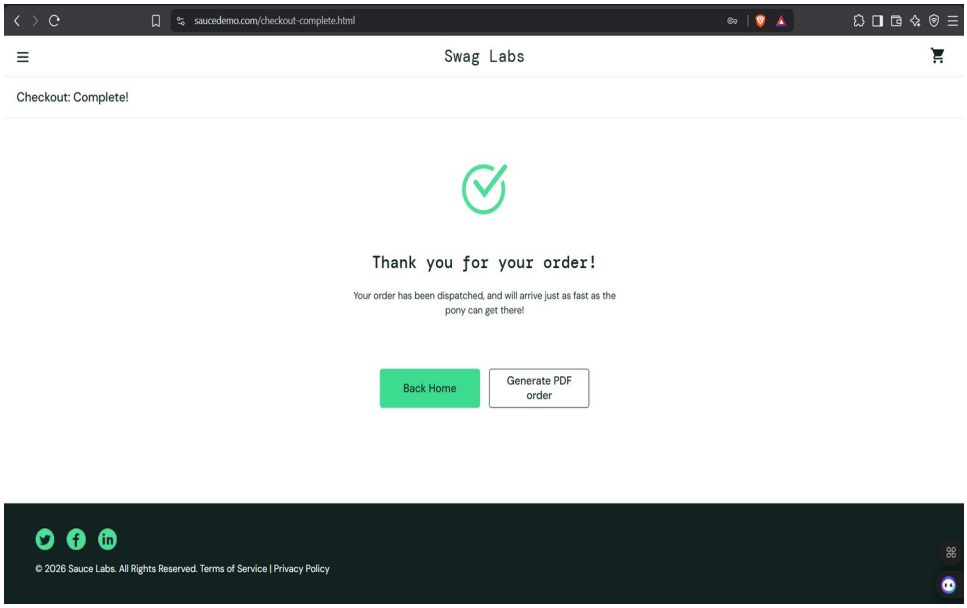

Scenario ID: 13d Complete the order (Finish)

Scenario: Place the order successfully

Test Steps:

1. On Overview page
2. Click Finish button

Expected Result: Redirected to Checkout Complete page with success message "Thank you for your order!"
Actual Result: Order completed successfully. Thank you message + Back Home and Generate PDF buttons shown
Status: **Pass**

Scenario ID: 13a Access Checkout Complete page without login

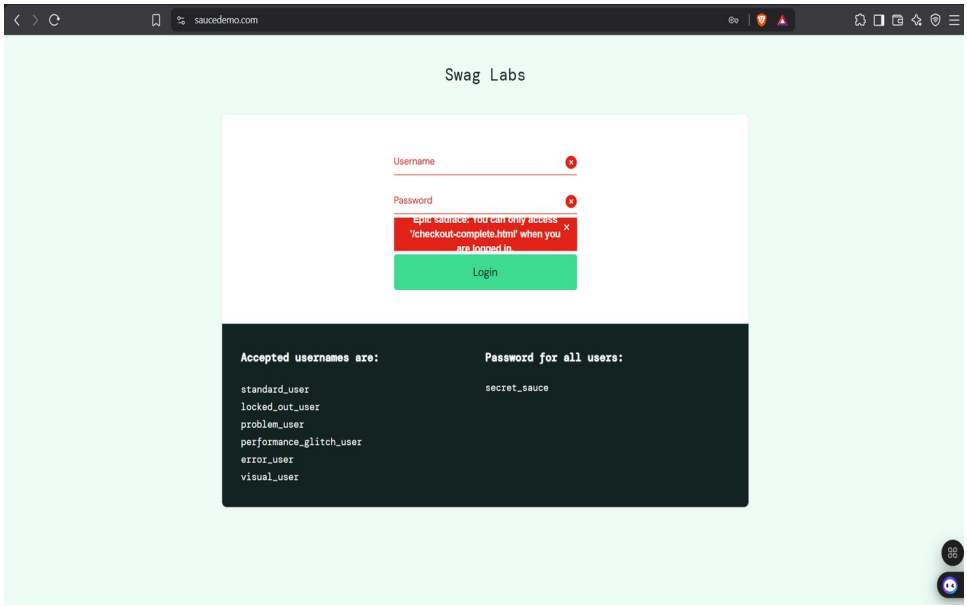

Scenario: Attempt to access protected page without authentication

Test Steps:

1. Logout or open a new browser session

2. Directly navigate to https://www.saucedemo.com/checkout-complete.html

Expected Result: User is redirected to Login page with error message preventing unauthorized access
Actual Result: Error shown: Epic sadface: You can only access '/checkout-complete.html' when you are logged in.
Status: **Pass**

Scenario ID: 14b Attempt to access checkout without login (repeat)

Scenario: Confirm protected route behavior

Test Steps:

1. Open a new browser session (logged out)
2. Directly navigate to https://www.saucedemo.com/checkout-complete.html
3. Observe the response

Expected Result: User is redirected to Login page with the same error message
Actual Result: Redirected to Login page correctly. Exact error shown confirming protected route.
Status: **Pass**

Summary Of Test Results

Total Test Cases: 14
Passed: 14
Failed: 0
Pass %: 100%

Conclusion and Recommendations

Pass Rate: 100%. All 14 test cases passed. Login, inventory, cart, checkout and security flows are working as expected based on the captured screenshots.

Key Observations:

- Login (valid & locked_out_user), product browsing, cart management, checkout information, overview and completion flows are working as expected.
- Price calculation (Item total $45.98 + Tax $3.68 = Total $49.66) is accurate.
- Cart badge state is maintained correctly across Inventory, Product Detail and Cart pages.
- Protected routes correctly redirect unauthenticated users to the login page with an appropriate error message.
- UI is clean, consistent and user-friendly on all tested pages.

Recommendations:

- Continue testing with other users (problem_user, performance_glitch_user, error_user, visual_user) to uncover additional defects.
- Perform cross-browser and mobile responsive testing.

- Add negative test cases for checkout form validation (empty fields, invalid postal code, etc.).

Bug Reports

No critical defects found in the current test cycle based on the provided screenshots.

Note: Earlier test runs had reported a possible off-by-one cent rounding issue ($49.65 vs $49.66). Current verification with the same product combination (Bolt T-Shirt $15.99 + Backpack $29.99) shows correct Total of $49.66.
