Summary of Test Results:

Total Test Cases: 12

Passed: 11

Failed: 1

Pass %: 91.67%

Conclusion and Recommendations:

Pass Rate: 91.67% — Needs Improvement

Issues Found

1. **Ambiguous Error on Existing-Email Sign-up (b7)**

Pinterest allows sign-up submission with an already registered email but returns the generic "Hmm, wrong email or password. Try again!" message — the same message shown for incorrect login credentials — instead of a distinct "email already in use" error.

Recommendations

2. **Add a Distinct Error Message for Duplicate Email**

Introduce a specific validation message during sign-up (e.g., "An account with this email already exists") so users can distinguish it from an incorrect-login error.

Bug Reports:

Bug ID	BUG-a7
Title	Sign-up flow shows generic login error for an already registered email
Module	Sign Up
Severity	Medium
Steps to Reproduce	1. Enter an existing/registered email 2. Enter a password and birthdate 3. Click Continue
Expected Result	Should show error that the email is already in use
Actual Result	"Hmm, wrong email or password. Try again!" (same as incorrect-login error)
